

# SPARSH

...enlightening lives

During the month, programs (and camps) were organised for Eye care, Self defence training, Tobacco de addiction and Energy conservation. Apart from these, renovation of toilets was taken-up in a big way in government schools. But the highlight of the CSR programs was a Volleyball and Kabaddi talent search tournament organised in rural areas of Outer West Delhi.

## Talent search sports tournament

To nurture the hidden talent in rural areas, a Volleyball and Kabaddi talent search tournament was organised by BRPL at the Mange Ram Vyayamshala, Kair Gaon, Jaffarpur Division. Conducted in association with the Delhi Police, a total of 22 teams in Kabaddi and 18 in Volleyball participated from rural areas of Najafgarh, Jaffarpur and Mundka.

## Renovation of toilets in Govt schools: 2500 students to benefit

The 'repairing and maintenance' campaign of toilets in government schools continued during the month. Around 50 toilets in 24 schools were taken-up in Najafgarh, Nangloi and Mundka. As part of the exercise, experts also gave gyan on sanitation and demonstrated proper hand washing techniques to around 2500 school children.

## Six eye care camps give 'clear vision' to over 2500 residents

Over 2500 residents - 2592 to be precise - benefitted from the six free eye care camps organised during the month in Jaffarpur, Najafgarh and Tagore Garden divisions. Over 1600 glasses (and medicines) were distributed.

## Energy Conservation drives: 3000 students from 25 schools take the green pledge

Around 3000 students from 25 schools in Najafgarh and Jaffarpur divisions participated in BRPL' energy conservation programs. After interactive sessions on the subject, students took out rallies to sensitise their neighbourhood about the same.

Apart from these, two tobacco de addiction programs were organised in West Delhi's Mundka, which saw 137 (of the 178 that attended) quit the habit. A self defence program was also organised at two girls' schools in Najafgarh, which saw participation from 129.
