

### Driving innovation, BSES facilitates setting-up of solar powered EV charging stations

Driving innovation in the EV sector, BSES has facilitated the integration of roof-top solar with EV charging stations. These will make the EV charging a greener affair. With this, BRPL has become the first discom in Delhi to integrate roof-top solar with a public EV charging stations to create a hybrid facility.

BRPL has facilitated the installation and energisation of two roof-top solar powered EV charging stations in South Extension and Bikaji Cama Place. EVs of 2, 3 and 4 wheelers can be charged at these stations. Five more such stations are under planning and will be energised over the next few months

### BRPL brings affordable & hygienic sanitary napkins to thousands of women in need

Through CSR efforts, BRPL has been working tirelessly to improve access to affordable and hygienic sanitary napkins for those in need. Apart from the manufacturing and distribution of lakhs of sanitary pads through its Self Help Groups, BRPL has facilitated installation of 20 Automatic Sanitary Napkin Vending & Incinerating Units across 9 government medical facilities in South and West Delhi.

### One small degree, one giant leap for energy savings! Set your AC to 24°C and save 6%

Increasing the air-conditioner temperature setting by just 1 degree Celsius can save about 6 per cent of electricity consumption, according to the Bureau of Energy Efficiency. For the most comfort at the least cost, set your AC thermostat at 24 degree C.

## SAFETY FIRST Get an ELCB installed

It is mandatory for consumers having electricity load of 2 kW & above\*

ELCB (Earth Leakage Circuit Breaker) is a simple yet a very useful device that detects earth leakage, automatically tripping and disconnecting the electricity supply to the premises/equipment, thus preventing serious mishaps

\*Under section 42 of the Central Electricity Act (CEA) Regulation 2015
