

BSES Lit-Up the G20 Summit

BSES doesn't just light up the lives of approximately 2 crore residents across East, Central, South and West Delhi; it also powers mega events. We are immensely privileged and proud to have played a crucial role in the success of the G20 Summit.

Under the guidance of the leadership team, our dedicated and experienced team of engineers and staff pulled out all stops to ensure a seamless and reliable power supply throughout the various venues of the G20 Summit, including the iconic Bharat Mandapam at Pragati Maidan.

Powering the G20 Summit: A Triumph of Teamwork and Technology

All venues of the G20 Summit witnessed reliable and uninterrupted power supply. The secret ingredients behind this massive operation were an experienced team of BSES engineers, state-of-the-art technology, multiple backups and 24x7 monitoring from BSES's SCADA control centre, the nerve centre of the discom's operations.

With 250 BSES personnel working tirelessly since January 2023, the distribution network at Pragati Maidan was augmented to include multiple backups, ensuring uninterrupted power throughout the event.

Energizing Diplomacy: BSES Spruced-Up Electrical Infrastructure for the G20 Summit

BSES pulled-out all the stops to ensure a seamless and uninterrupted power supply during the G20 Summit! Apart from using the latest technologies, the discom spruced-up its network, including 5000+ poles, 260+ transformers, and 250+ feeder pillars across 55 roads.
